TWO OF THE  
EIGHT WONDERS  
OF KANSAS-  
IN ONE  
SPACE

HUTCHINSON, KANSAS

# 650' DEEP

**Explore a  
world unknown!**

Adventure awaits 650 feet underground at STRATACA where it's a short trip down into an active salt mine. Be amazed by palatial salt strata formed 275 million years ago by the Permian Sea. Learn about salt mining, past and present, in the *Mining Gallery* and then catch a ride on the *Salt Mine Express* train to experience the raw mine just as it was left by miners over 50 years ago. The *Dark Ride* awaits as you journey on a tram through a maze of massive salt chambers that includes a stop to gather a souvenir salt rock. Don't forget to visit Batman in his underground lair!

**Uncover underground  
mysteries today!**

# STRATACA

KANSAS UNDERGROUND SALT MUSEUM

# DEEP SPACE

**Take off...to an interactive  
galactic experience!**

Travel through time and space in the Hall of Space Museum as you view flown spacecraft including Apollo 13 *Odyssey* and Gemini X. Enjoy a stunning documentary or exciting feature film and feel like you're part of the action in the Carey Digital Dome Theater. Reach for the stars in the Justice Planetarium. Operate a Mars Rover in our unmanned spacecraft gallery, *Investigate Space: Our Universe*. Explore the shuttle era in *The Astronaut Experience*. All this and more, not light years away, but just around the corner. Plan to allow two to four hours to explore our space!

**We're counting down  
to your arrival!**
